

## SWEET ZIP

copyright 2010 Terry Atkinson

*This little zipper pouch is a perfect fit for tissues, candy, contacts, medications, etc. Make one to keep and two to give away!*

### MATERIALS (makes 3)

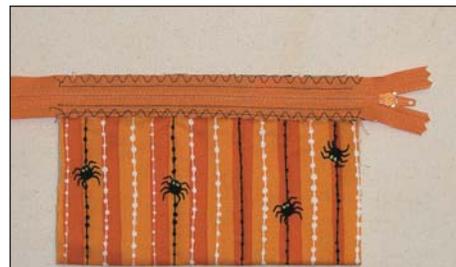

2 print fat eighths (9" x 21")  
 ¼ yd. fusible fleece (cut 1 - 8½" x 20")  
 3 - 14" zippers, thread

### SEWING INSTRUCTIONS

**A.** Center and fuse the fleece to the wrong side of the lining print. Layer the second print rectangle on top of the fleece and quilt. Use a walking foot to quilt straight lines 1½" apart or use a darning foot to meander. **Cut 3 - 6½" x 8"**

**B.** Align the zipper with the 6½" edge, right sides together as shown. (zipper pull will face down) Stitch a ¼" seam through all layers. Zig-zag along edge to flatten the edge and prevent raveling.

**C.** Fold the quilted panel away from the zipper and topstitch a scant ¼" away from the fold, **making sure to catch the edge of the zipper tape underneath.**

**D.** Fold the quilted panel in half and align the zipper with the opposite edge. Stitch a ¼" seam. Zig-zag the edge.

**E.** Unzip the zipper so the panel is flat and it is easy to topstitch along the second half of the zipper. (like Step C)

**F.** Close the zipper to make a tube. With the zipper centered, flatten the pouch and stitch a ¼" seam at the end. (at the bottom of the zipper)

**G.** Unzip the zipper and stitch seam at the opposite end. **After stitching, make sure the zipper pull is between the seams.** Trim the zipper ends even with the fabric. Zig zag seams.

**H.** Fold each corner as shown and stitch a line ¾" from the point, perpendicular to the end seam.
